frying pan

GASTRO garinox®

- Made of **18/10 stainless steel**, sturdy and durable, designed for professional performance.
- **Satin-finished interior and exterior**, giving it an elegant look and making it easy to clean.
- **Stainless steel riveted handle**, robust and secure even with frequent use.
- **Triple-layer sandwich diffuser base**, ensuring rapid and even heat distribution.
- Materials 100% free from toxic substances and heavy metals, **PFAS-free**, ensuring healthy cooking.
- Designed for **intensive use**, ideal for professional kitchens.
- Compatible with all hobs, including **induction, and oven-safe**.
- Easy to clean and fully dishwasher-safe.

frying pan

TITANIUM

- The body is constructed from three layers of the highest quality materials: an inner layer of **100% pure titanium**, a middle layer of 1060 aluminium, and an outer layer of 18% stainless steel, ensuring rapid and even heat distribution.
- Food-grade titanium inner layer, a **biocompatible and antibacterial material**, ideal if you're looking for a hypoallergenic option in the kitchen.
- **The TitanGrill surface** which is 100% PFAS-free, is designed to prevent food from sticking.
- A cooking surface that preserves nutrients, better retaining the food's natural moisture and enhancing its flavour.
- Optimal performance at high temperatures, allowing you to sear and brown with professional results, combined with the characteristic lightness of titanium.
- High resistance to corrosion, remaining in perfect condition even after demanding daily use.
- **Ergonomic handle made with high-quality stainless steel**, secured with **steel rivets**, designed to offer safety, stability and comfortable cooking.
- Lightweight and easy to handle, designed for comfortable everyday use.
- **Suitable for all types of hobs**, particularly induction.
- **Oven and dishwasher safe**.

pressure cooker

CALA

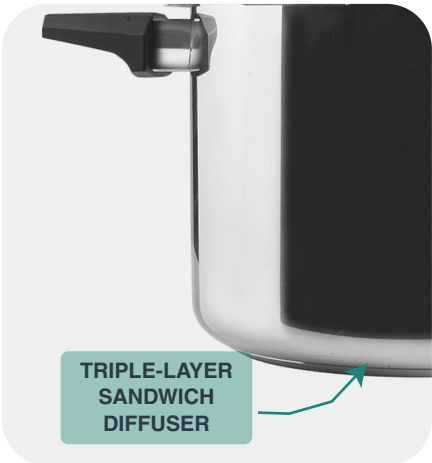

- Made of **high-quality 18/10 stainless steel**, with an elegant mirror-polished exterior finish.
- **Ergonomic bakelite handle and grip**, designed for a secure seal and comfortable opening.
- Features a **triple-layer heat-diffusing** base that ensures **even heat distribution** and enables energy savings of up to 70%.
- It features an internal scale for practical and accurate measurement of capacity.
- It has **3 safety systems** that activate in the event of excessive pressure to ensure rapid and safe pressure release.
- It has a **control valve** to select the desired pressure level (from 60 kPa to 100 kPa).
- Compatible with all types of hobs, including induction.
- The body is dishwasher-safe, making **cleaning convenient and efficient**.

tray

MAX

- Made of **high-quality vitrified steel**, specially **designed for intensive use**.
- **Withstands temperatures of up to 300°C** without warping, ensuring even cooking and high heat resistance.
- **100% PFAS- and PTFE-free** non-stick coating; prevents food from sticking and allows for **quick and easy removal**.
- **20 mm rim**, designed to fit securely into the oven rails and ensure safe handling.
- Straight corners that maximise capacity. Specially designed to withstand the daily demands of professional kitchens and bakeries.
- Ideal for baking and presenting dishes on the same tray.
- Easy to clean. **Dishwasher safe**.
